b7c JEFFREY L. DANKER, white male, date of birth May 11, 1960, was interviewed by Special Agents (SAs) [redacted] and [redacted] who identified themselves as Special Agents of the Federal Bureau of Investigation (FBI). At the outset of the interview, DANKER was asked if he had any objection to being interviewed by the FBI for Behavioral Science purposes, and for the purpose of Law Enforcement learning from a serial killer. DANKER stated that he had no objection to being interviewed. DANKER was advised of his rights, and DANKER declined to have an attorney present during the interview. The interview took place in the segregation of the Columbia Correctional Center in Portage, Wisconsin.

DANKER advised that he first realized his sexual orientation when he was 13 years old, realizing that he was homosexual. DANKER stated that this bothered him a little, because he was different from other people. DANKER stated that he had a lonely childhood in that his only sibling was a brother which was six years younger than him, and he never really had any close personal friends. DANKER was asked by the interviewing agent what his relationship was with his parents, and DANKER stated that his parents were average, but did not show much affection.

DANKER stated that when he was 13 and 14 he started fantasizing about sex with a dead body, and he then turned to heavy masturbation. DANKER was asked what he meant by heavy masturbation, and he stated that he would masturbate three to four times a day. DANKER stated that he also started drinking heavily to try to suppress his fantasies, but that did not help.

DANKER stated that he had a fascination with death and when he was around 14 he used to bring home road kill, and then dissect it, because he liked to look at the internal organs. DANKER stated that he got sexually aroused when he would look at the internal organs. DANKER stated that he never had sex with any animals.

DANNER was asked by the interviewing agents if he had ever killed an animal, and DANNER stated that he intended to on one occasion, where he had found an Irish Setter and brought it home and was going to kill it and then skin it and dissect, but when the dog looked at him with its eyes, DANNER could not kill it, so he just let the dog go.

DANNER advised that he started turning to pornography and heavy masturbation to try and satisfy his fantasies, but at around age 15 he started having the violent fantasies of sex with a dead body. DANNER stated that he actually started fantasizing about striking someone on the back of the neck and taking them unconscious and then having sex with the body. DANNER stated that when he was in the ninth grade, approximately age 15, he was assaulted by a group of youths, who struck with a black jack on the back of the neck. DANNER stated that he started fantasizing about retaliation, and this aroused him sexually.

DANNER talked about his "mind set" which was constant and he was trapped in this obsession and need to dominate. DANNER called it a prison in his own mind, which was always constant. DANNER stated that he was totally obsessed with his need for physical pleasure. DANNER stated that he never hated his victims nor did he ever want his victims to suffer. DANNER stated that he never wanted to cause any pain, but just wanted to satisfy his own selfish pleasures. DANNER stated that he never tortured any of his victims. DANNER stated that he was totally obsessed with the need to dominate and control, and have total control over a body. DANNER did not look at his victims as people, but just as objects for his own selfish pleasure. DANNER advised that this sense of total control and total domination increased the sexual thrill. DANNER stated that knowing that he had total control over his victims, and could do with them as he pleased was his motivation.

DANNER was asked how he would entice his victims, and DANNER stated that he met all of his victims in gay bars, bathhouses, or pornographic shops and he would just offer them money for sex or invite them back to his apartment for sex and photographs in exchange for money.

DANNER stated that his fantasy and obsession was with the perfect male body, what DANNER described as the "Chip and Dale", the gymnasts build or an athletic body, between the ages

of 19 and 22. DANKER stated that he never fantasized about children or young teenagers. DANKER stated that his fantasies of a good looking well built young man having total control over him, being able to totally to dominate that person. DANKER stated that he did not mean to kill, but wanted to create "love slaves" or scumbies that would do everything DANKER pleased.

DANKER also tried to create a scumbie by drilling holes into the frontal lobe of his victim's brains and pouring in meretric acid. DANKER stated that this worked at first, but after a while the victims would die.

DANKER further advised that he tried to freeze dry the perfect mate, so he could continually have sex with the body, and by freezing he felt that the body would not decompose. DANKER stated that this did not work for very long.

DANKER stated that he tried to control his obsession with heavy drinking, pornography, and masturbation. DANKER stated that pornography and masturbation would not satisfy him, but would intensify the obsession and he absolutely had to get another body. DANKER stated he sole purpose for living, the driving force behind his existence, was his need for pleasure. DANKER stated that his fantasy and obsessions were all consuming, and took control of his whole life. DANKER stated that he took some risks, but would never take unnecessary risks because he did not want to get caught. DANKER stated that getting caught was his worst nightmare. DANKER stated that some risks did add to the pleasure.

DANKER stated that after taking a victim, this would satisfy him for a couple of months, then the fantasies and obsessions would start to increase and he needed more and more to get the same level of satisfaction, so he would have to get another victim. DANKER stated that the intense desire was always present but he could get by with viewing photographs of his victims and some of his "memories". DANKER stated that he kept body parts of his victims as mementos to serve as arousal in place of new bodies, until he could get a new body.

DANKER stated that he always kept the skulls, sometimes the genitals, hands, and some internal organs.

DANKER stated that when he would turn to pornography to satisfy his obsessions, this would depress him and would make him want the real thing more and more.

DANKER stated that once he stole a mannequin from a Boston Store (1986 or 1987) and he tried to satisfy his desires and compulsion with utilizing this mannequin but that did not work.

DANKER stated that he tried to resist his temptation for killing, by looking in the newspaper in the obituary column and finding a death notice for any 19 or 30 year old male and he attended the funeral and when he saw the male in the casket, it was the perfect body so after the burial he went to the graveyard and tried to dig up the grave. DANKER stated that he could not dig up the grave, because the ground was too hard, and while he was attempting to dig he was attacked by a graveyard dog.

DANKER further advised that he would be sexually aroused by the different sounds that a body would make. DANKER stated that he had a very extreme fascination with the human body. DANKER stated that he liked to delicately slit the skin and peel it back and look at the capillaries and different blood vessels.

DANKER stated that he found sexually arousing to look at the internal organs of the body or what DANKER called the viscera, and the way that the internal organs would glisten. DANKER stated that he had sexual thoughts and fantasies about the viscera (internal organs).

DANKER was asked by the interviewing agents how he knew so much about the human anatomy, and DANKER stated that he did some reading, along with calling some taxidermists. DANKER also stated that he dissected by trial and error.

DANKER advised that his sexual routine was to go out on the street and find the perfect gymnastic type body or what DANKER referred to as the "Chip and Dale" body, and entice them with offers of money for photographs and sex, and bring them back to his apartment and serve them drinks. DANKER stated that he would then mix in sleeping pills, five to six halcion .125 milligrams and within a half an hour his victims would pass out, and then he would strangle them. DANKER stated that he never wanted to cause

any of his victims any pain. DANNER stated that he just wanted total control over the body.

DANNER stated that after having total control over the body he would have sex with the body. DANNER was asked by the interviewing agents how he would perform his sex acts, and DANNER stated that he would do penis to anus, penis to mouth, and he would make a slit in the body above the pubic line and have sexual intercourse then with the body.

DANNER stated that he would also slit open the body and then masturbate.

DANNER was asked what tools he would use for dismembering his victims, and DANNER stated that he had a large hunting knife with rubber grips and a very sharp edge. DANNER stated that it was not serrated, but had a large blade which was very sharp.

DANNER stated that he would dismember his victims by slitting them from the sternum to the pubic area and then he would remove the internal organs and then would cut the flesh, starting from the calves, legs, then up the side. DANNER stated that he would remove the head and put that in the freezer and then he would delicately take the flesh off and put that in a large 80 gallon cooking pot. DANNER stated that he would then boil the skull and the bones, and have a clean skeleton.

DANNER stated that he did this right in his own apartment, and he would dispose of the flesh, organs, and bones, by boiling them in hydrochloric maratic acid, until he could flush it down the toilet.

DANNER was asked by the interviewing agents if he was concerned for security at his apartment, and DANNER stated that he had installed a security system in his apartment, which cost \$400. DANNER stated that he had different locks on the bathroom, bedroom, and front door. DANNER stated that he had a video camera set up for security.

DANNER was asked by the interviewing agents if the cannibalism was sexually gratifying also. DANNER stated that it was. DANNER stated that the cannibalism started out as experimentation, but it made him feel that the victims were part

7-874-26957

of him. DANKER stated that it gave him sexual arousal, total control over his victims, and when he would eat part of his victims, he felt at one with the victim.

DANKER was asked by the interviewing agents what parts of the victims he ate, and DANKER stated that he ate the hearts, liver, thigh meat and at one time he ate a bicep. DANKER stated that he would prepare this feast by frying the organ in a skillet on the stove, the way you would prepare a regular piece of meat. DANKER stated that he cut the pieces into small sizes that were small enough to eat. DANKER stated that he found the meat to be very tasty and DANKER described it as eating a filet mignon, which was very tender and juicy.

DANKER was asked by the interviewing agents if he ever got out of jail, would it be possible for him to lead a normal life, and DANKER stated that the best place for him is in prison because he knows if he ever gets out he would go right back to the same behavior, including killing.

DANKER was asked by the interview agents if he had any fascination with fire, or if he was a bedwetter as a child, or any cruelty to animals. DANKER stated that he has never had any fascination with fire, nor was he ever a bedwetter, and the only fascination he had with animals was the road kill that he brought home to dissect. DANKER stated that he was never cruel to any animals.

DANKER was asked by the interviewing agents if there was any class in his life that his co-workers could have picked up on, or his neighbors could have seen that would have tipped off the fact that he was a serial killer. DANKER stated that he kept his life very compartmentalized and there was a distinct split between his personal life, his work life, and his apartment life. DANKER stated that there was never any clue to his dark side. DANKER stated that people at work just thought he was a loner and kept to himself and did his job and did not bother anybody. DANKER stated that his neighbors at the apartment complex thought him to be a nice young man who minded his own business, but was pleasant.

There was a split and his life was very noncompartmentalized, and that he would put up with his boss at work for eight hours telling him what to do, but he would not put up

with any other "shit" in other aspects of his life. DANKER stated that he did not like people telling him what to do. DANKER stated that as far as the probation and parole agent was concerned, DANKER was a model client. DANKER stated that his probation agent did not interfere with him at all and that he just worked around the agent. DANKER stated that as far as his apartment was concerned, he maintained a very orderly and clean apartment. DANKER stated that anyone entering the apartment, their first impression would be one of order and cleanliness.

DANKER was asked by the interviewing agents if there was anything law enforcement could have done to have stopped him or catch him sooner, and DANKER stated that he had had numerous contacts with the police, but he is soft spoken and respectful to the police and could usually talk his way out of problems. DANKER stated that there were many incidents which happened, where he should have been caught, but he was not.

DANKER advised that he should have been caught after the first murder, STEVEN HICKS, but the police were not thorough. DANKER stated that he did not plan on picking up a hitchhiker and killing him, it's just that everything fell into place on a certain day. DANKER stated that he had been fantasizing about killing since he was about 14 years old, and when he was 19, he was driving down the street and saw a young white male hitchhiking. DANKER knew that his parents and brother were gone for the weekend, so it gave him the perfect opportunity to act out his fantasies. DANKER stated that he picked up STEVEN HICKS and then brought him back to his parents' place and then killed him. DANKER stated that he had sex with the dead body. DANKER further advised that later that night, during the early morning hours, he had the HICKS body cut up and placed in a trash bag and was driving down the street when a patrol car stopped him. DANKER stated that two police officers then ordered him out of the car, and they shined their flashlights in his car and saw the garbage bag, and asked DANKER what was in the bag and what the horrible smell was, and DANKER told them that he was just bringing some old garbage to the city dump. DANKER stated that the officers never looked in the bag and just gave him a ticket for driving left of center.

DANKER stated that this incident frightened him and he fully expected to have been caught. DANKER stated that he did not kill again for nearly 10 years.

DANNER stated that his second murder was STEVEN TUCKI, and this murder took place at the AMBASSADOR HOTEL somewhere around 1986 or 1987. DANNER stated that he did not intend to kill TUCKI, but he had a passed out and when he came to the next day he was laying on top of TUCKI, and TUCKI was dead. DANNER realized that he had killed TUCKI. DANNER then needed to dispose of the body, so he went out and purchased a large suitcase and came back to the AMBASSADOR HOTEL, and then placed the body in the suitcase and called a cab. DANNER stated that the cabbie then helped him carry the suitcase to the cab, and the cabbie asked DANNER what was in the suitcase, because it smelled so bad and was very heavy. DANNER did not respond to the cabbie, but had him drive DANNER to his grandmother's house in West Allis, where DANNER subsequently dissected and disposed of the body.

DANNER told of another incident where he feared apprehension. This took place in 1988 when he was arrested for taking photographs of an elder SINTASOMPHONE boy. DANNER was arrested for lewd and lascivious behavior for taking nude photographs. DANNER stated that the police then executed a search warrant at his apartment and when the police searched his bedroom drawers, DANNER had a skull in one of the drawers, but the police missed it. DANNER stated that he was experiencing extreme fear at being caught, but when the police officers searched the drawers, they evidently did not see the skull. DANNER felt that they had tunnel vision and were looking for drugs and nude photographs and passed right over the skull, which he had covered with a towel. DANNER stated that he sat in jail for 6 days waiting for the police to come back and confront him with this fact, but the police never did.

DANNER told about another incident when he had a waxified head in a small chest in a closet, which he subsequently took to work and kept in his locker. DANNER stated that his locker was searched at one time, and the skull was found, but DANNER had painted it with a gray paint, and the investigators thought that it was fake.

DANNER advised of another incident while he was at his apartment, the police were conducting a door-to-door investigation because someone had been killed on the 3rd floor. DANNER stated that when the police came to his apartment to ask questions, he thought that he was going to get caught, because at the time that the police were there, he had a dead body on his

bed in his bedroom. DANKER stated that the police entered his apartment and asked him if they could ask him some questions, and DANKER agreed, and then the police asked him for permission to look around, and DANKER did not know what to do so he told the police that they could look all they wanted to. The police then did not search his apartment or even look into the bedroom.

DANKER talked about another incident where he had met a teenage boy working at a gay bar in Milwaukee, and brought this guy back to his apartment and did not have any sleeping pills remaining, so he tried to get the person drunk. DANKER stated that it was not working to his satisfaction so he hit the guy in the head with a rubber mallet, and it dazed him, but did not knock him unconscious so they got into a struggle and the person fled.

This guy then reported the incident to the police, but it sounded so bizarre that the police did not believe him.

DANKER then spoke of another incident which happened with KONRAD SINTASCHPOWITZ, when SINTASCHPOWITZ ran out of DANKER's apartment nude, and a neighbor called the police. The police then responded and brought SINTASCHPOWITZ back to the apartment, and DANKER stated that he (DANKER) was totally terrified and was expecting to get caught and he attempted to stay calm and rational and told the police that he and SINTASCHPOWITZ were lovers, and were having a lovers quarrel. DANKER then showed the police some photographs that were taken of DANKER and SINTASCHPOWITZ that would depict them as being close lovers. DANKER had told the police that SINTASCHPOWITZ had the back to drink and was sloppy. DANKER stated that the police did not examine SINTASCHPOWITZ completely, or take him to a hospital, if they had they would have easily seen a skull fracture where DANKER had actually drilled some holes in the skull.

b7c
DANKER advised that when he was caught, he had no secret subconscious wish to get caught, but the night that he was caught was different than any other night. DANKER stated that he had met this [redacted] and they agreed to return to DANKER's apartment, and they started drinking and DANKER passed out and does not remember anything that happened. DANKER stated that it was very rare for him to pass out, because he is a heavy drinker and can handle the alcohol and on evenings that he was on the "previ", he did not drink to excess. DANKER stated that the

b7c
 evening of [redacted] he does not know what happened, but when he woke up there was some pounding on the door, and he answered the door and there were police officers standing there with [redacted] and [redacted] (i.e.) had a handcuff cuffed to his arm. DANNEN stated that he (DANNEN) panicked and did not have time to think up a story and opened the door and allowed the police to enter. DANNEN stated that the police then asked him for permission to search his apartment, and when they did search the apartment they found skulls and then immediately arrested him.

DANNEN was asked if he was relieved that it was over and that was finally arrested and DANNEN stated that he was not glad that it was over. DANNEN stated that he liked his lifestyle and found it exciting and thrilling, and would have continued forever. DANNEN stated that the best place for him to be is in prison because if he was ever released he knows that he would go right back to the same activities and behavior. DANNEN was asked if he had a premonition or a dream that he was going to be arrested and DANNEN stated that he did have recurring nightmares about a large tornado striking and him trying to hide in the ditch and he saved. DANNEN stated that he did feel things were falling apart and he was starting to lose control in February of 1991. DANNEN explained that he had CIPRI STRAUGHTEN on his bed, and STRAUGHTEN was dropped and was starting to pass out, when STRAUGHTEN rolled off the bed and landed over a black table which DANNEN had two griffins on. DANNEN stated that these griffins were part of the occult and symbolized personal power and he said that he did not have to answer to anyone. DANNEN stated that there were words written on each griffin, one had love and the other had anger. DANNEN again stated that this symbolized persons, power, and he felt that this was a sign to show that he was losing control.

DANNEN was asked if he was involved in the occult, and DANNEN stated that he started dabbling in the occult and reading, and his favorite movie was EXORCIST III, because it helped fit into his fantasy. DANNEN stated that in the movie EXORCIST III the guy could create illusions, and DANNEN felt that he himself could create illusions.

DANNEN was asked if he had any religious background and DANNEN stated that he did not have the religious background growing up, but after being discharged from the army he attempted to turn to religion while living with his grandmother in West

allis DANKER had only committed one murder at this time, and he had thought about going to the police, but decided against it. DANKER thought that turning to religion might help satisfy his controlling urges and fantasies, but it did not work so he gave up on religion.

DANKER was asked that if there was a toll free 1/800 number that he could have called anonymously and talked to a psychiatrist to try and get some help, would he in fact have made that call. DANKER stated emphatically that he would not have made a call anonymously or otherwise to any toll free number. DANKER stated that he would not have trusted anyone, and he had to keep his secret at all costs. DANKER also felt that he could not have been helped. DANKER stated that his obsession was too powerful and all consuming, and took over his life. DANKER stated that after his arrest he has had many, many hours with psychiatrists, and he did not enjoy his sessions with the different psychiatrists because all they could do is label him such as a necrophiliac (having sex with a dead body) or a paraphilia (sexual disorders), but the psychiatrists could not say why it happened, or how it happened, or how to treat it. DANKER stated that it upset him that the psychiatrists would just label him, but not be able to explain why or how to deal with it.

DANKER was asked by the interviewing agents if he had ever thought about suicide, and DANKER stated that he had not and that he enjoyed his lifestyle and that he was so much into his obsession, that it was a primary motivator in his life, and he did not want to end it. DANKER stated that after his arrest he thinks about suicide all the time and if he could do it he would kill himself.

DANKER was asked if he had any interest in other serial killers and DANKER stated that he never had an interest in any other cases, or any interest to read or follow serial killing cases. DANKER stated that he was just caught up in his own fantasies. DANKER stated though that since he has been incarcerated he has received letters from other killers who have admitted killing and said that they knew how he feels and that it felt like to do it. DANKER stated that he felt that those letters were authentic and sincere, and DANKER would be willing to turn the letters over to the FBI.

DANKER was asked if he received more satisfaction out of the sex acts or the controlling of the individuals, and DANKER stated that it was half and half. DANKER stated that the total control of another individual was his fantasy and that would build the excitement that when he would ejaculate that it would be more pleasurable.

DANKER stated that going out on the hunt was in itself a thrill, never knowing who he would meet or how nice looking they would be, or how much fun he would have with them. DANKER stated that this in itself was part of the fantasy.

DANKER stated that he had never tried a heterosexual relationship and never had any interest in doing so even on an experimental basis. DANKER stated that his first homosexual encounter occurred when he was around 13 or 14, with a next door neighbor, and it was only kissing and heavy petting.

DANKER again advised that he never hated any of his victims, nor was it ever a racial thing, in that many of his victims were white, black, Hispanic and even Jewish. DANKER advised that what he was looking for was the perfect "chip and dale" body and it did not matter to him who the individual was.

DANKER stated that he was very insulted by the Milwaukee Journal trying to make his case look like a racially motivated or hate type of crime, and DANKER stated that there was never any hate involved. DANKER stated that the first two people he killed were white the third guy was an American Indian, the fourth victim was Hispanic, and then he killed some black males, then an Indian, a Jewish man a Puerto Rican, and another white male. DANKER stated that his victims were chosen by appearance and body type, and availability to his proposals.

DANKER was asked by the interviewing agents if he had any remorse for what he had done, and DANKER stated that he did not. DANKER stated that the only time he felt bad was after the first murder, STEVEN NICKS, and that had bothered him. DANKER stated that after all of the other murders it never bothered him and he would not put on an act or fake crocodile tears to gain sympathy. DANKER stated that it does bother him that he is not bothered by his actions. DANKER stated though that if he had a conscience, he probably would not have killed anybody. DANKER stated that while he was involved in his murders, he never

7-000-14087

Continuation of FD-302 of

JEFFREY L. DANNERDate 8/3/93Page 13

thought of the individuals as people, and having families that would grieve for the victim. DANNER just viewed the victims as objects for his own personal sexual gratification. DANNER stated that he now looks back on it and feels bad for the families, and all the pain that he has caused them. DANNER stated that he was very selfish and only cared about satisfying his own pleasures.

DANNER advised that since his arrest he has turned to religion, and does believe in God and that there will be a final judgement, and he does not want any secrets any more. DANNER stated that he does not believe in reincarnation.

b7c
DANNER was asked by the interviewing agents if his compulsion to kill was so great that he could not control it under any circumstances and DANNER stated that he would not kill a victim if there was a possibility of getting caught. DANNER stated that he did not take unnecessary risks and was very cautious as to not be seen with the victims, i.e. cab drivers, bar patrons, etc. DANNER stated that there was one individual by the name of [redacted] who he had at his grandmother's home, and he fully intended on killing this individual, but his grandmother came in and saw the two of them together, so he did not kill this male, because he knew he would get caught.

DANNER was asked by the interviewing agents what he felt was the reason or the contributing factors to his serial killings, and if there was anything he could change. DANNER stated that if he could eliminate his fantasies, the overwhelming fantasies that started when he was about age 15 and 16, when he was thinking and fantasizing about having sex with a dead body. DANNER stated that if he could have short circuited those fantasies, then it may have stopped short of killings. DANNER was asked if he felt that pornography and alcohol contributed to his problem and DANNER stated that a lot of people drink and a lot of people use hardcore pornography, but they don't go out and kill. DANNER stated that the alcohol would help overcome any inhibitions or resistance that he may have had on his part and the hardcore pornography just led to more fantasies and masturbation. DANNER was asked what came first the fantasies or the pornography and DANNER said it was the fantasies. DANNER stated that he then used the pornography to help satisfy his fantasies.

DAMON volunteered the fact that his fantasies always had the perfect "ship and dale" or gymnastic body of a 19 22 year old male. DAMON stated that he never once had an interest in young children, and that he had nothing to do with the ADAM WALSH abduction and murder in Florida. DAMON brought this up, because he knew that he was a suspect in that murder, but DAMON stated that he had nothing to do with it, nor would it ever have crossed his mind. The interviewing agents asked DAMON if he would confess to the ADAM WALSH murder if in fact he had committed it, and DAMON stated that he absolutely would. DAMON was asked why he would confess to that murder, and DAMON stated that at this point he does not want any secrets, and he has already confessed to 17 murders, half of which the police would never have known about if he had not told them. DAMON further advised that there comes a time when there will be a final judgement, and he knows that he has been judged now while he is on the earth, but he concerned about the final judgement and did not want any secrets.

SA [redacted] asked DAMON from a [redacted] viewpoint's point of view, why did DAMON confess to [redacted] under interrogation. DAMON stated that [redacted] was not phony, and was very personable and easy to talk to. DAMON stated that [redacted] made him comfortable and made sure that his DAMON needs were met. DAMON stated that the second detective, [redacted] was businesslike and hardnosed, and it was harder for DAMON to open up to him.

DAMON stated that [redacted] did not judge him (DAMON), and did not play "hardass". DAMON also felt that [redacted] could tell if DAMON was bluffing, and [redacted] told DAMON that he could not hide the truth forever. DAMON stated that at this point he knew he was going to get caught because the police had already found all the skulls in his apartment, and he wanted to face the judgement now, as opposed to dying and facing a final judgement. DAMON also advised that [redacted] did not make DAMON feel embarrassed over what he had done. [redacted] said that it was okay, and that he [redacted] has seen worse. DAMON stated that he felt that [redacted] was sincere, and very personable and seemed to care about him (DAMON), as a person. DAMON stated that it was very easy to talk to [redacted] and that [redacted] was honest with DAMON, and did not play any games with him.

DAMMER STATED THAT DURING HIS INTERVIEW QUESTIONING BY
MILWAUKEE POLICE DEPARTMENT - HOMICIDE DETECTIVES, DURING JULY

Re: Inside Edition Interview
of Jeffrey L. Dahmer

Dear [redacted]:

On Wednesday, March 24, 1993, Special Agent (SA) [redacted]
[redacted] of the Milwaukee Office of the Federal Bureau of
Investigation (FBI), met with yourself and [redacted] of
your office to review the taped interview of Jeffrey L. Dahmer.

Inside Edition publicly aired the interview of Jeffrey
L. Dahmer; however, the Department of Corrections has an uncut
and unedited video tape of the interview of Dahmer, including
several hours of preliminary discussions with Dahmer, his step
mother, Inside Edition personnel, and Department of Corrections
officials.

b7c
The FBI has interviewed Jeffrey L. Dahmer in the past,
and has an investigative interest in Dahmer. In the interview of
Dahmer, Dahmer has advised that he has received numerous letters
from other serial killers. Dahmer has turned over to the FBI
several letters which he feels could be legitimate serial
killers:

The FBI Behavioral Science Unit does extensive research
and training concerning serial killers and it would be extremely
beneficial to the FBI to obtain a copy of the unedited, uncut
video tape of interviews of Dahmer.

In conversations between SA [redacted] and
[redacted] advised that he does not have
the authority to release the tape to the FBI.

b7c Dear [redacted]

This is confirm a discussion between yourself and Special Agent SA, [redacted] regarding contacts with subject Jeffrey L. CLEVELAND DIVISION
At Akron, Ohio

The following investigation was conducted on July 24, 1991, by Special Agent (SA) [REDACTED] at Akron, Ohio:

SA [REDACTED] Federal Bureau of Investigation (FBI), Madison, Wisconsin Resident Agency (RA), telephoned the Akron RA and indicated that JEFFREY L. DANDER, date of birth May 21, 1960, Social Security Number 249-60-2131 had been arrested in Milwaukee for the slaying of numerous men, and through interview had admitted to killing his first victim in 1978 in or near Richfield, Ohio. According to [REDACTED] DANDER lived at 4480 West Bath Road, Bath, Ohio, at the time of the slaying. He also had identification indicating an address at 4485 West Grainger Road, Akron, Ohio with a Driver's License that expired May 21, 1995. According to [REDACTED] in DANDER's confession, he indicated that when he was approximately 18, in 1978, he picked up a 19-year old white male near his residence, took the male to his residence, which is believed to be 4480 West Bath Road address, killed that individual at that house, dismembered his body and scattered the remains in a field near his residence.

b7c Contact was made with the Richfield, Ohio Police Department (Chief JOHN WALSH) and the Bath, Ohio Police Department [REDACTED], and the above information was related to them. According to both police departments, the Bath Police Department was handling the investigation of the matter since it appeared that this murder occurred in Bath.

Contact was then made with [REDACTED] of the Summit County Sheriff's Office to determine whether he had records of any missing persons in 1978 time frame. According to [REDACTED] he had a report of a missing person by the name of BRUCE MARK WILKES, date of birth June 22, 1959, weight 130 pounds, height 5' 10", brown hair, brown eyes with a scar on the right forearm, and a birthmark the size of a dime on his back. According to [REDACTED] dental records of WILKES are available with the Summit County Sheriff's Office [REDACTED] indicated

7-205-24057-2166

that NICKS was hitchhiking to the Chippewa Lake State Park at the time he was reported missing. NICKS was last seen on June 18, 1978. There was no indication in the Missing Persons file of any homosexuality on the part of NICKS.

An off-line search of the Missing Persons file for the State of Ohio was conducted by NCIC in Washington. The search parameters included white males with birthdates between January 1, 1944 and December 31, 1947. According to the person who made the search, 18 persons were identified as falling within those search parameters, but only one had a date of last contact in 1978. That person is STEVEN MARK NICKS, as described above. All of the individuals whose birthdays fell within that time frame have dates of last contact in 1975 or later. That off line search should have discovered all missing persons who were white males and approximately 18 years of age in 1978 who have been reported and included in the computer system for the State of Ohio.

Contact also was made with the PET Military Records agents in the St. Louis Division. According to those records, JERRY L. DANKER entered the United States Army on January 12, 1978, in Cleveland, Ohio. He was originally stationed at Fort Monmouth in the Military Police School. DANKER "wasn't out" of that school in approximately April of 1978 and was transferred to Fort Sam Houston for the Medical Specialist School. That school lasted approximately six weeks. Following that six week school, DANKER was transferred to Germany, but may have had leave just prior to leaving for Germany. DANKER was apparently in Germany from 1978 through his release date of March 26, 1981. He was released from the Army in Germany in 1981 for alcoholism. His address at the time of release from the military was 440 West Bath Road, Bath, Ohio.

Photographs of STEVEN MARK NICKS have been sent to the FBI in Madison, Wisconsin (SA [redacted]) and to the Milwaukee Police Department by the Bath Police Department. Additionally, aerial photographs of the area around DANKER's home in Bath have also been submitted.

Apartment was full of gore

Police found heads
scattered around

By MICHAEL C. BUELOW
Associated Press

MILWAUKEE Inside the apartment of a suspected serial killer, police found unimaginable gore scattered about, a jumble of decomposed heads, pieces of mutilated meat on the heavy drap and severed heads inside.

In a 10-page report they issued a head with a green head of having seen heads in a medical examiner's report remained Thursday.

Julius E. B. III, 37, was charged with slaying, dismembering and photographing a woman whose decomposed body was found in his one-bedroom apartment Monday afternoon.

The description of Dahmer's apartment was included in a 16-page report by forensic investigator Shirley Gabel.

"On the west wall is a boarder with Polaroid photos of skulls in different degrees of surgical excision," the report said.

In the dinner of Dahmer's dresser there were "many Polaroid photos of skulls at different stages of dissection" and "a large collection of skulls." To the north of the dresser is a computer box with two skulls and a photo diary.

Four other skulls were found scattered in the top drawer of filing cabinet and on the top shelf of a bookshelf.

Three other skulls were found in garbage bags in a bedroom.

The latter one-bedroom apartment had one and one-half bedrooms. The apartment was the bedroom of the apartment and the apartment was the bedroom of the apartment.

Other items in the apartment included ethyl alcohol, chloroform, a medical syringe, a medical syringe, a medical syringe, and four 1-gallon bottles of meat and food.

Various pornographic videos were found about the house, the report added. Pictures of nude men were found on a wall above the bed and head of a woman in the bathroom.

Police confiscated and took away a Polaroid camera and the bones of a woman from the apartment were found in the apartment of the apartment.

Milwaukee police say suspect may have slain at least 17 people

By MICHAEL G. SUELOW

MILWAUKEE (AP)—A Milwaukee man whose apartment was strewn with body parts is believed to have killed at least 17 people—most probably a decade ago, police said Thursday.

Police told said they found parts of 11 bodies in his apartment.

Investigative teams sought additional victims from suspect Arthur Delaney and "examining, corroborative information provided by other suspects," Police Chief Philip Aronoff said.

The Milwaukee Journal, meanwhile, reported that police in Germany "went to 'question' Delaney about five mysterious murders near an Army base whose victims served in the early 1960s."

Delaney, an probation for the 34th, himself pleaded guilty to a 1962 shooting and charged Thursday in Milwaukee County Circuit Court with first-degree intentional homicide.

Older newspaper said he was being held on a charge that he had killed 17 people in Germany and a 1962 shooting in Milwaukee, killing more of them. He was also charged with photographing the victims during decomposition.

Police were not in the apartment Monday by a handwritten message, "I am not here," said Delaney's lawyer, James Edwards. He said he was accused of killing the "17" people in the "1962" shooting and in 1962, and was charged with photographing the victims during decomposition.

The newspaper said he was charged with "killing 17 people in Germany and a 1962 shooting in Milwaukee." Edwards said he was charged with photographing the victims during decomposition.

Edwards of Delaney, who is from Milwaukee, Ohio, said they discovered a star lined with bones and silver three years ago when he lived with his grandmother but

couldn't tell if the remains were human or animal. Aronoff said police had arrested Delaney.

Aronoff said he was not sure if Delaney was a suspect in the shooting. "When he was young, he used to use tools to scrape the meat off dead animals. He told his mother 'I knew that's what he was doing'."

Delaney's apartment was found in 1962, and police found 11 bodies. Aronoff said he was not sure if Delaney was a suspect in the shooting. "When he was young, he used to use tools to scrape the meat off dead animals. He told his mother 'I knew that's what he was doing'."

Police also said they talked to Delaney's apartment, a 1962 shooting of a 14-year-old boy who was a missing brother of a youth Delaney met.

The 1962 shooting, which was a 1962 shooting, was a 1962 shooting of a 14-year-old boy who was a missing brother of a youth Delaney met.
